

## ANNOUNCING

### MDAccess Mobile- HML's Mobile Physician Portal

HML is pleased to announce the launch of MDAccess Mobile - HML's Mobile Physician Portal, a secure, HIPAA compliant mobile website that smartphone browsers can utilize. Now, no matter what your schedule demands, or whether you're on call or on the go, you can get the information you need. With MDAccess Mobile, you can search for and review Patient Test Results, keep track of Critical and Abnormal Results, & utilize your MDAccess Rounds List.

MDAccess Mobile works best with iPhone and Android operating systems; Palm webOS (now owned by HP and called HP webOS) and most Blackberry models with Operating System 6.0 will also work.

To launch MDAccess Mobile on your smartphone, go to Hagerstown Medical Laboratory's Website, <http://www.hagerstownmedlab.com/>, and select the link to **MDAccess-HML's Physician Portal** on the home page. Providers can use their WCH Meditech or HML Portal Username & Password to Login.

The screenshot shows a mobile application interface for Hagerstown Medical Laboratory. At the top left is the HML logo. Below it, the text "Please Login" is centered. There are two input fields: "User Name:" and "Password:". To the right of the "Password:" field is a "Log in" button. At the bottom center of the screen, the text "Full Application" is displayed.

If you do not have a User Name & Password to Login and/or would like more information, please contact your HML Marketing Rep, Jane Anderson via Phone @ 301-665-4857 or 1-800-428-2105 or send her an e-mail [Jane.Anderson@wchsys.org](mailto:Jane.Anderson@wchsys.org).
