

## Hagerstown Medical Laboratory

Date: May 26, 2011

To: Clients of Hagerstown Medical Laboratory, Inc.

From: John G. Newby, MD  
Director of Laboratories 

Subject: Antenatal RhoGAM Specimen Collection and Injection Administration Protocol Change effective June 6, 2011

Effective June 6, 2011, Hagerstown Medical Laboratory (HML) will begin collecting elective antenatal RhoGAM (RANT) specimens at all of our Patient Service Centers (PSC) during their normal business hours. As of June 6, 2011, elective outpatient antenatal RhoGAM specimen collection will no longer be offered at Meritus Medical Center.

Please note the following when ordering RhoGAM for your patients:

- Appointments *are not* required for collecting RhoGAM specimens at our Patient Service Centers. Requisitions for RANT may be brought to the PSC by the patient or faxed to HML at 301-665-4996.
- Appointments *are* required for administering RhoGAM injections at the Infusion Center at Meritus Medical Center. Physician offices should call 301-790-8842 to set their patient's appointment and orders must be faxed to 240-313-9588. The Infusion Center is open each day of the week from 7:00am to 11:00pm, including holidays.
- Antenatal RhoGAM injection appointments must occur at least 24 hours *after* specimen collection but *no more than* 72 hours post-collection.

For your convenience, a list of our PSC's and their hours of operation is attached. If you have questions or need further information about this change, please contact me by calling 301-665-4900 or 1-800-428-2105.
